## WIFE KILLS HUSBAND.

Jealousy Leads to a Domestic Tragedy in Which Man Is Shot.

### PURSUED BY MADDENED HUSBAND

Woman Eludes Her Assailant, and While Resisting His Attempted Assault Shoots Him Through the Heart.

Binghamton, N. Y., Nov. 10.—Mrs. Enoch Hink shot and killed her husband at their home, about three miles above Port Dickinson. Hink was 53 years old. His wife was 40. They have been married 23 years.

For some time Hink has been jealous of a nephew, Frank Hink, who has boarded at the Hink home. Mr. and Mrs. Hink and Frank Hink came to Binghamton and Mrs. Hink and Frank drove home alone. Hink, who had arrived home some time previously in an intoxicated condition, quarreled with his wife and made an assault upon her. She ran out of doors in her nightdress, barefooted and pursued by her husband, and ran down the road. He was armed with a clasp-knife. Finally in the darkness Mrs. Hink eluded him, and going back to the house barreled her bedroom. Hink went back and when he tried to open the door to renew the assault the woman took a shotgun and pointed it at her husband. It was discharged, the charge entering Hink's breast just above the heart. He died in a few minutes.

### Celebrate King's Birthday.

Sandringham, England, Nov. 10.—Crowds of visitors came here on the chance of seeing Emperor William. The approaches to the church were lined with spectators. Queen Alexandra, the Prince of Wales and Mrs. Chamberlain arrived at the church together. Half an hour later King Edward, Emperor William, Prime Minister Balfour, Colonial Secretary Chamberlain and other distinguished persons arrived and stood chatting outside. The service had begun and the anthem had been reached before the royal party entered the church, the king taking the emperor's arm. The bishop of Ripon preached on the possibility of the disappearance of race distinctions and the attaining of the grand brotherhood of man. He referred to King Edward's recovery from his illness; to the visit of his kinsman monarch, and to the ties which have long united Germany and Great Britain. The services were closed by singing the national anthem. Afterwards the two monarchs walked together through the gardens. During the day King Edward received a host of birthday congratulations and gifts. Emperor William gave him a valuable vase. At the palace the royal party heard Jan Kubelik, the Austrian violinist.

### Negro Identifies Mason.

Boston, Nov. 10.—George L. O. Perry, the negro who pawned the watches taken from the Murdock women and Miss Clara A. Morton and Miss Agnes McPhee, declared that Alan G. Mason is the man from whom he received these articles. Perry was taken to the jail in East Cambridge, where Mason, under arrest on the charge of killing Miss Morton, is confined pending a hearing in the Cambridge court. In one of the jail corridors Perry positively identified Mason as the man who had given him the two watches. Mason, by neither look nor word, betrayed any knowledge of having seen Perry before. When questioned by Sheriff Fairbank Mason merely said: "I do not know this man; I never saw him before."

### Dissenters Seize a Church.

Manilla, Nov. 10.—The dissenting native Catholics who last week took possession of the church at Pandacan, Manilla, have now surrendered the edifice to the Roman Catholic church authorities. Other native dissenters seized a church near Cavite and held services there. It is thought that the question of property rights involved in these seizures will be taken into court.

### Egan Search Continues.

Kalispel, Mont., Nov. 10.—There have been no developments in the Egan search, notwithstanding a reward of \$1,000 has attracted more men into the district. Another party left Columbia Falls for Hungry Horse creek and will be out several days. It is now almost impossible to get through the country except on snowshoes.

Lincoln, Neb., Nov. 10.—The western half of Nebraska is experiencing its first severe storm of the season, assuming in places the proportions of a blizzard from the northwest. Snow is falling and at Beaver City, Furnas county, there has been a drop of temperature of 40 degrees in 12 hours.

## TROOPS GUARD THE JAIL.

Negro Prisoner Protected From Being Lynched—Mob Is Dispersed.

Anniston, Ala., Nov. 10.—The mob which assembled at this place to lynch the negro, Jason Baker, suspected of having assaulted and robbed Mrs. Williams, has dispersed. Four companies of troops are still guarding the jail. Mrs. Williams, who is in a critical condition, was unable to identify Baker, and it is believed he is not the right man, but he is being held until Mrs. Williams is able to see him a second time. Troops will remain on guard for the present.

### Sultan's Disavowal.

Manilla, Nov. 10.—The sultan of Bacolod has sent a letter to Captain Pershing, commanding the American troops at Camp Vicars, island of Mindanao, disavowing any desire to make war on the Americans. He denies molesting Americans, and says he is not in possession of stolen American property. Brigadier General Sumner, commander of the department of Mindanao, has been preparing to send a column to Bacolod, but the expedition will probably be abandoned, although the military will watch the sultan and determine if his friendly assurances are genuine. It is expected that the completion of the Iligan road and the occupation of the north shore of the lake will finally show the attitude of the Moros. They continue to show as great friendliness as possible.

### Slept Life Away.

New York, Nov. 10.—Nellie Coreoran, who for 20 days lay in a mysterious state of coma in St. Vincent's hospital, is dead. Her case was an extremely puzzling one to medical practitioners throughout the city. The girl fell into her state of unconsciousness Oct. 10 at the house where she was employed as a servant. At the hospital where she was taken heroic efforts to determine the cause of her condition met with little success. Hundreds of physicians examined her and every known method was tried to awaken her, but with no avail. Two or three times she was aroused and spoke a few words, saying she was sleeping, and again became unconscious.

### Philanthropic Proposition.

New York, Nov. 10.—Architects are at work on plans for a great philanthropic institute on the lower East Side, modeled after the Hull House, in England. The institution will be erected by the bride of Bishop Potter, who was Mrs. Alfred Corning Clark. Mrs. Potter will expend \$250,000 on the building, the site of which will cost \$200,000 more. There will be a kindergarten, a splendid library, music and reading room, a lecture hall and other departments suited for the moral and physical needs of all classes of the teeming East Side population.

### New River Discovered.

New York, Nov. 10.—W. J. Wilson, an explorer of the Canadian geological survey, has returned with his party through the unexplored country to the south west of James Bay, says a dispatch from Ottawa. Mr. Wilson reports the discovery of a large river hitherto unsurveyed and running between the Albany river on the south and the Ottawa picket river on the north. It has a course of over 300 miles and near James Bay divides into two branches, emptying into Hudson Bay. Several new lakes also were discovered.

### Shoots His Father.

Marne, Iowa, Nov. 10.—In a family row here L. J. Giles was shot and perhaps fatally wounded by his son. Giles and his wife were divorced a number of years ago but were recently remarried, and their trouble broke out anew. Giles started in to exterminate the family when the older son shot the father twice.

### Machinists on Strike.

Steubenville, O., Nov. 10.—The machinists at the National Steel company's mill at Mingo Junction are out on a strike. They have just organized and presented their scale, but it was not signed and one member of the committee was discharged, so all walked out.

### Police After Doukhobers.

St. Paul, Nov. 10.—A Winnipeg special says: "The mounted police started for Minnedosa in a blizzard. The government has decided that the Doukhobers' pilgrimage must cease, and the police have been sent to carry out the decision."

### Off For Navy Maneuvers.

New York, Nov. 10.—The United States battleships Alabama, Captain C. H. Davis, and Massachusetts, Captain H. N. Manney, sailed from this port for Culebra Island, in the Caribbean sea, where they will participate in the winter maneuvers.

Manilla, Nov. 10.—The United States commission has repealed the Spanish law which imposed an income tax on salaries. The law, which had been operative since 1890, proved unsatisfactory.

## FRENCH MINING RIOT.

Cavalry Charge Fifteen Thousand Striking Miners in the Coal Fields.

### SPANISH GENERAL LOSES HIS MIND

Carlist Plot Discovered and Leaders Are Arrested—Italy's Trade With United States—Foreign News Fresh From the Cable.

Paris, Nov. 10.—The government is taking precautions to handle another outbreak on the part of the striking miners in case the decision reached to continue the strike is followed by violence. Troops were active in the mining regions throughout the day, but no serious disorders have as yet been reported. The authorities believe that the crisis in the strike is near and that the next 24 hours will settle the question whether the men hold to their decision to continue the movement or straggle back to the mines.

Following the decision of the miners' congress to continue the strike there were disorderly occurrences in Lens. The cavalry charged repeatedly a crowd of 15,000 riotous miners and succeeded in preventing them from advancing. Considerable minor damage was done. At Courrières houses of nonstriking miners were sacked and a number of coal wagons were burned. A clash between strikers and gendarmes and cavalry is reported from Clermont Ferrand. It was not attended with serious results. From some mining centers it is reported that the miners are likely to return to work in spite of the decision of the congress to the contrary.

### Italy's Increased Exports.

Rome, Nov. 10.—Commenting on the alarm felt in some quarters at the threatened inundation of Italy by American goods, The Tribuna points out that the trade returns for September show that Italy's exports to the United States have exceeded the imports therefrom by \$600,000, and concludes that Italy has less to fear from the competition of the United States than other countries in Europe. The Tribuna considers that even Italian wine can find promising markets in America, notwithstanding the California vineyards.

### General Becomes Insane.

Madrid, Nov. 10.—General Toral, who commanded the Spanish army at Santiago de Cuba at the time of the town's surrender, lost his reason in this way. A few days ago while at Alhambra he received instructions from the Spanish government to draw up a full account of the surrender of Santiago. From that time he showed great signs of agitation, and was frequently heard repeating the words, "Surrender!" "Surrender!" The news has created a sensation in Madrid.

### Carlist Plot Discovered.

Barcelona, Nov. 10.—The discovery of another Carlist plot here has been followed by the arrest of the leaders of the movement. Apparently its immediate object was to secure funds for future operations, the plan being to raise the standard of revolt and reap profit in bourse transactions by operating for a fall in prices.

### Naval Battle Expected.

Panama, Colombia, Nov. 10.—The Colombian government gunboats Bogota and Chuequito left here for a trip along the coast in search of the revolutionary fleet. It is reported that Captain Marmaduke of the Bogota has received instructions to engage the revolutionists in a decisive battle if he finds it possible to do so.

### Contest Would Be Futile.

Canton, O., Nov. 10.—Congressman R. W. Taylor of Lisbon expressed the belief here that it would be futile to make a contest against the seating of Judge Dewitt C. Badger as representative of the Twelfth Ohio district. Badger defeated Cyrus Huling at the election, but since it has been asserted that his votes are void under the Ohio constitution because he was holding a commission as judge when elected, Congressman Taylor, who is chairman of elections committee No. 1, said there was direct precedent for seating Judge Badger regardless of the constitutional provisions, other judges elected while still holding commissions having been seated.

### Sought Peace in Death.

Lawrenceville, Ga., Nov. 10.—The body of Olin Haygood, son of S. A. Haygood, a justice of the peace and a prominent citizen of this place, was found by his brother, hanging to the limb of a tree in front of the court house. He left a letter to his family in which he asserted his innocence of a certain crime with which he had been charged, and declared suicide was his only refuge from the humiliation to which he had been subjected.

## FAVORS THE CANTEEN.

General Wood Says the Military Are of One Opinion.

New York, Nov. 10.—General Leonard Wood, who went over with Generals Corbin and Young to represent this country at the German war maneuvers, has arrived on the American line steamship St. Louis. General Wood was accompanied by his family. "I remained after Generals Corbin and Young," said General Wood, "in order to visit Scotland with my family. The generals and myself were treated very kindly both in Germany and England. We were granted every facility for seeing the workings of the military systems and have seen many things which were not only interesting and instructive, but will be useful if adopted in this country." General Wood was asked whether he is in favor of establishing the canteen in the army. He replied: "My canteen reports are on file. General Funston has come out strong for the canteen, did he not? I think we are all of one opinion on that subject." General Wood went direct to Washington.

Prince Henry of Prussia, who comes to represent the German emperor at the dedication of the New York chamber of commerce on Tuesday, was also a passenger on the St. Louis.

### Pumping Station Wrecked.

New York, Nov. 10.—Two men were killed and one of the pumping stations of the city's water supply system in Queensborough was totally destroyed by the explosion of one of two big boilers. Those killed were: William Dihoy, the engineer of the plant; James Nelson, fireman. The building was ripped to pieces. Bricks from it flew a distance of 1,000 feet or more while the boiler which exploded was hurled 200 feet from its bed. The other boiler was not in use at the time but was lifted from its foundations and thrown 100 feet in the other direction. The body of the engineer was hurled about 150 feet from a spot where he is supposed to have been standing. Sealing of the boiler is supposed to have caused the explosion.

### Morgan May Testify.

St. Paul, Nov. 10.—Some of the most important bits of testimony that have yet been taken in the case of the United States government against the Northern Securities company will probably be taken this week in New York city before Special Examiner Frederick G. Ingersoll of St. Paul, who has gone to New York. The traffic officers of several of the big eastern roads will be called on by the defendants. The hearing is a continuation of the session held in St. Paul three weeks ago. The hearing has been postponed until Wednesday. It will consume about a week. Besides the eastern railroad men several officers and stockholders of the Northern Securities company will be placed on the stand. Among them may be J. P. Morgan.

### Wounded and Robbed.

Pomeroy, O., Nov. 10.—Harry Allemang, who pitched in the Southern league this season and who has signed with Cincinnati for the coming year, was shot and mortally wounded at Mason, W. Va., his home. Allemang had been out with friends and was returning home when he found burglars at work in the postoffice. A sentry on the outside ordered Allemang to halt. No attention was paid to the command and the sentry fired on Allemang, the bullet entering his back and lodging in the left lung. When Allemang had fallen to the ground the robbers took \$980 from him.

### Grosvenor's Position.

Athens, O., Nov. 10.—The position of General Charles H. Grosvenor in the speakership contest which will occur in the organization of the lower house of the Fifty-eighth congress inspired the general to issue the following statement: "To set at rest the various unauthorized rumors floating through the press, I desire to state through the medium of The Enquirer that I am not a candidate for speaker of the house of representatives of the Fifty-eighth congress, nor do I believe that any contingency will arise that will make me such."

### Two Safes Robbed.

Pittsburg, Nov. 10.—The office of Walker & Stratman, soap manufacturers, on Herr's Island, has been looted by burglars. Two of the four safes in the office were dynamited, about \$600 stolen, and fully \$6,000 damage done to the building. The office building is some distance from the manufactory proper, which enabled the burglars to do their work unmolested by the watchman and the dozen or more men who were on the night turn. No clue to the robbers has been found.

Buffalo, Nov. 10.—Christopher Willis shot Mary Ferguson, his fiancée, and then fired a bullet into his own head, killing himself almost instantly. Miss Ferguson is fatally wounded. The cause has not been ascertained. Both were from Bath, N. Y.

## AFTER THE LADRONES.

Vigorous Measures Will Be Instituted to Suppress Disorder.

### DEPREDACTIONS ARE CONTINUED.

Military and Civil Authorities Will Co-operate in Pacifying the Districts Where Armed Bands Are in Hiding.

Manilla, Nov. 10.—The government is adopting vigorous measures to suppress ladronism in the provinces of Cavite, Rizal and Bulacan. A zone embracing these three provinces and surrounding Manilla is the scene of constant petty and sometimes serious disorder. Several armed bands, some of them numbering 200 or 300 men, are operating in the described district and have committed various depredations. They find a safe refuge in the mountains. The plan of the government contemplates securing the assistance of the military, which has been inactive since the end of the insurrection. The extent of the army's participation in the work of suppression depends upon developments. It is probable that the military authorities will request the garrisons to protect the more important towns, while the constabulary conduct the field operations. It is thought that martial law, in a modified form, will be declared, and the privilege of the writ of habeas corpus suspended in Cavite province, which has been the home of the ladrones for ages.

Military control of Cavite province is not contemplated. It is intended that the military and civil authorities shall work in conjunction. The belief is held that advantage has been taken in some parts of the island of the complete inactivity of the soldiers, and it is thought that the use of the army by the civil authorities will have a beneficial effect. The vigorous campaign against the ladrones which has been conducted by volunteers in Bulacan province has resulted in driving many refugee bandits into Rizal, where the campaign is now opening. General Davis is co-operating with Governor Taft. He has strengthened the garrisons in Rizal and is supporting and assisting the native constabulary which is now afield. The operations in Cavite province will commence shortly.

### Admiral Bradford's Report.

Washington, Nov. 10.—In his annual report, just made public, Admiral Bradford, chief of the bureau of equipment and repair of the navy department, takes occasion to renew his protest against the action of the department in substituting a naval constructor for a line officer at shipbuilding yards. A naval constructor, he says, is a non-seagoing officer. Inquiries as to the custom of the merchant marine in this matter, the report says, show that the construction of merchant ships generally is supervised by the most experienced master mariner and chief engineer in the employ of the owner. It is an anomaly to build a ship and prepare her for sea under the supervision of a landsman. The report does not touch on the question of additional coaling stations or of wireless telegraphy.

### Killed in a Collision.

Huntington, W. Va., Nov. 10.—The Norfolk and Western fast express from Columbus to Norfolk, Va., had a head-end collision with an extra freight near Williamson. Owing to a heavy fog the engineer of the passenger train failed to see the signal, and when the collision occurred his train was running nearly 50 miles an hour. John Snyder of Plattsburg, Va., express messenger, was instantly killed. The injured are: Abe Jackson, engineer, and J. C. Eakins, fireman. They live in Kenova and each is in a serious condition. The baggage and mail car caught fire and Snyder's remains were burned to a crisp.

### Bankers' Train Wrecked.

Cleveland, Nov. 10.—The Big Four special train which left Cleveland with a party of Cleveland and northern Ohio bankers en route to the national convention at New Orleans was wrecked near Marysville, O. None of the passengers was injured. One trainman, known as "Duckey," a brakeman of Lorain, stealing a ride between the tender and baggage car, was instantly killed. Several trainmen were slightly hurt.

### A "Wild" Girl.

Owingsville, Ky., Nov. 10.—News reaches here from Fagan, Menifee county, that great excitement has been caused in that section on account of the appearance of a small unknown girl, who is frequently seen in the woods near that place, but who runs into the timber and disappears if any one approaches her. There are no habitations within several miles of where the girl is seen.

## GARDEN SPOT

Of Creation in Minerals and Soil  
 Is Dear Old Kentucky.

Eastern Journal Says Few Sections Have a  
 More Desirable Diversity in These  
 Lines.

Kentucky comes in for a score of high-class compliments in the following article printed in the November issue of the Southern Field, a monthly publication issued by the industrial department of the Southern railway:

"Few States of the Union have such a variety of geological formations, or such a desirable diversity of minerals and soils for the development of wealth in agriculture, mining and manufacturers. The coal fields of Kentucky consist of the Central and Appalachian, the latter extending over a large area in the southeastern part of the State. Along the Cumberland Mountains from Middleboro to Jellico on the Southern railway are extensive beds of exceptionally high grade coal; that mined at Jellico being famous throughout the South. In close proximity to the coal are to be found valuable deposits which need but the stimulation of capital for development to cause them to become great wealth producers. Kentucky has also vast forests of merchantable timber embracing almost every variety of commercial value, thus affording excellent location for the establishment of lumber mills, furniture factories and in fact woodworking plants of every description. Kentucky's manufacturing and mechanical industries have been greatly developed during the last half century. Recent census reports show a capital of \$104,070,791 invested in manufactures and mechanical industries in the 9,500 establishments reported for the State, exclusive of capital stock, and show a gross value of products of \$151,605,115.

"The ten leading industries of the State in 1900 embraced 3,332 establishments or 34.9 per cent. of the total number and used a capital of \$58,521,580 or 56.2 per cent. of the total.

"The manufacture of tobacco is the most important industry in the State, and during the decade ending with 1900 shows an increase in the value of products of \$10,600,736 or 93.6 per cent. The manufacture of flour and grist mill products ranks second among the industries of the State and within the last few years has increased nearly 50 per cent. in the value of products.

"Establishments engaged in the manufacture of lumber and timber products also show a notable gain during the last decade, their output having increased in value 74.3 per cent. or \$5,870,483. The iron and steel industry of Kentucky greatly advanced during the period from 1890 to 1900, showing an increase of more than 152 per cent. in the value of manufactured products.

"Tanning is one of the State's important industries, turning out products in 1900 to the value of \$3,757,016. Kentucky, fortunately, has good forests of chestnut oak, the bark from which is principally used in that State in the manufacture of leather. The advantage of these trees lies in the fact that when they are cut down and stripped of their bark new shoots spring from the stumps and in twenty years new trees are ready for stripping.

"During the half century beginning with 1850 the population of Kentucky increased from 982,405 to 2,147,174, or 118.6 per cent., while the average number of wage-earners employed in manufacturing establishments increased from 21,476 to 62,962, or 193.2 per cent., embracing in 1900 2.9 per cent. of the entire population compared with 2.2 per cent. in 1850.

"The leading manufacturing industries are grouped under the following heads, showing the capital invested:

Machinery.....	\$ 3,692,059
Textile mills.....	3,474,616
Iron and steel works.....	6,239,739
Leather works.....	6,609,828
Barrel and box factories.....	1,830,950
Building material plants.....	4,034,763
Vehicle factories.....	3,742,983
Furniture and woodworking factories.....	1,833,616
Saw and planing mills.....	11,313,442
Fertilizer factories.....	338,974
Foundries.....	3,477,141
Canning factories.....	241,715
Distilleries and breweries.....	17,633,190
Clothing factories.....	3,543,898
Dye works.....	183,650
Flour and grist mills.....	4,030,433
Ice plants.....	1,200,117
Monumental works.....	548,478

## A SUCCESS THROUGHOUT.

Annual Convention of Mason County Sunday School Association Attracted Large Crowd Saturday.

The annual convention of the Mason County branch of the Kentucky Sunday School Association last Saturday at the M. E. Church, Third street, was a most gratifying success, and augurs well for the future of the work in this county. The attendance was probably the largest in the history of the association.

The opening song service at 10 a. m. was conducted by Mr. Boyd K. Muse. The feature of this was a fine solo by Mr. Muse. After prayer by Rev. Dr. Evans, Mr. Stanley Reed delivered the address of welcome, Prof. W. R. Chandler responding on behalf of the delegates and visitors. Mr. Reed has a fine voice, and received many compliments on his excellent address. Prof. Chandler's address was followed by special prayer by Rev. E. L. Shepard for the success of the meeting and the work generally.

The Dover quartette, composed of Miss Grace Cain, soprano, Miss Florence Munzing, alto, Mr. Sam True, tenor, and Mr. W. F. Munzing, bass, favored the convention with an inspiring song, and then there was an address by Prof. W. P. King, a paper by Miss Greenhow, of Ripley, and an address by Prof. E. A. Fox. The morning's program closed with a solo, sweetly rendered by Maysville's accomplished vocalist, Miss Florence Pearce Wadsworth.

During the noon recess a tempting luncheon was served in the Sunday school room of the church by the ladies of the various churches of the city.

At the afternoon session the Committee on Nominations, composed of the pastors of the city and county, reported officers for ensuing year as follows:

President—L. M. Lane.  
 Vice President—J. B. Noyes.  
 Secretary and Treasurer—E. Swift.  
 Executive Committee—L. M. Lane, J. J. Wood, W. P. King, J. T. Kackley, R. A. Cochran and Hays Thomas.

Mr. Lane afterwards stated that it would be impossible for him to attend to the work as President, and by a rising vote the convention reelected Mr. Duley to that position. Mr. Duley had previously asked to be excused from serving further in this capacity, but he gracefully submitted to the unanimous wish of the convention.

To Rev. F. W. Harrop was assigned the duty of taking the offering for the State work, but he is a success in presenting such appeals and succeeded admirably.

The Committee on Resolutions, composed of J. Elgin Anderson, Miss Mary Finch, W. P. King, W. R. Chandler and M. F. Marsh, presented the following which were adopted:

We your Committee on Resolutions beg to submit the following:

WHEREAS, it has been our good fortune to again meet with the people of Maysville in the Mason County Sunday School convention, and whereas we have again been partakers of their unstinted hospitality; therefore be it

Resolved, That the hearty thanks of this convention are hereby extended to the good people for their generosity and for the part they have taken in making the day a most pleasant one and this annual meeting a success.

Resolved, That we are under many obligations to our worthy President, Mr. John Duley, for the most excellent work he has done and is doing while at the head of the county organization. We recognize in him a leader who is well fitted for the good work and one who is thoroughly qualified to point the way to greater things. Further

Resolved, That we are also under obligations to those who have so ably filled their respective parts on the program—to the speakers, the singers and all who have added in any way to the success of the convention, and especially are we obligated to the able Secretary, Prof. E. A. Fox, of the International work, for the part he has taken in our county work. We also desire to thank the membership of the Third Street

Methodist Episcopal Church for the use of their building, so kindly tendered for this occasion.

Resolved, That a hearty vote of thanks is hereby tendered the good women of the various churches of Maysville for the bountiful luncheon we have enjoyed this day, and for their untiring services towards making the convention a success.

The principal address of the afternoon was by Prof. Rolf, of Vanceburg. A duet by Misses Jennie Tucker and Gertrude Pollock, two of Germantown's sweetest singers, and a solo, charmingly rendered by Miss Edith Berry, were features of the afternoon's musical program. At the close of Prof. Rolf's address, the convention adjourned, Rev. Dr. Green, of Ripley, pronouncing the benediction.

The mass meeting Sunday afternoon was addressed by Prof. Fox. The attendance at this meeting was disappointing, as comparatively few children were present. A violin solo by Miss Lida Rogers, accompanied by her sister, Miss Florence, and two quartettes, sung by Dr. Smoot, Mr. Boyd Muse, Rev. R. E. Moss and Mr. Elgin Smoot, were greatly enjoyed.

Mrs. John Altmeyer, who has been quite ill the last few days, was somewhat better this morning.

Sam Leever, of the Pittsburg Base Ball Club, is now home near Goshen, O., and will spend the winter there with his parents. He signed a two years' contract before leaving Pittsburg.

Vivian, daughter of Mr. and Mrs. R. Lee Mason, died Sunday afternoon at the home of her grandparents, Mr. and Mrs. M. B. Tolle, on Second street, Fifth ward, aged fourteen months. Funeral Tuesday at 10 o'clock. Burial at Olivet Cemetery.

## Our Idea of Trade-Building!

We believe that people wish to trade where they can do best, and that to get their trade it is necessary to do best by them. This is the principle that we have tried to apply, and it has proven effective. We are sure that our business will keep on growing. It will grow because all those features that have brought trade are still in operation. We want your trade, and we ask for it solely on the basis of our intention and ability to do you good. We ask you to come here whenever you need anything that a druggist ought to sell, and feel sure that if you come once you will continue to come.

### ENDED HER LIFE.

Miss Jennie Nash, of Epworth, Lewis County, Committed Suicide at Indianapolis Last Saturday.

A special from Indianapolis tells of the suicide of Jennie Nash, a fashionably dressed young woman of Epworth, Lewis County, until a week ago cashier at a ten cent store at that place, early Saturday morning in a room on the third floor of the Marquette Hotel. The body was not found until a few minutes after noon, and the young woman was not identified until Saturday. She had killed herself by taking chloroform, two empty bottles that had contained the drug being found on the dresser in the room.

Why she ended her own life not even her intimate friends know. Coroner B. Rayton, who investigated the case and examined her effects at the Marion Hotel, found a note. It was as follows:

"I am tired of life and have lived just as long as I intend to."

A week ago she left the store and told friends that she had been discharged. The manager of the store said that the young woman left of her own accord.

Miss Nash was a cousin of Mr. Jacob Nash of this city.

### BEAUTIFUL AND IMPRESSIVE

Were the Services Sunday Afternoon at the Catholic Cemetery at Washington in Memory of Loved Ones Gone Before.

Nature does not always concur with our desire for sunshine, without which "the best laid plans of gaug alee," but in a beneficent mood she made yesterday ideal, from the first radiance of dawn to the last glimmer of twilight, thereby rounding to perfection the impressive ceremonies at the Washington cemetery. It is a beautiful sentiment—indeed something more profound, more sacred than sentiment—that ushers in each November, a day on which the whole Catholic world unites, as with one great soul, in reverent memory of her beloved dead.

The indomitable energy and remarkable success of Rev. P. M. Jones in advancing the interests of his people, are perhaps most clearly defined by the cemetery improvements. From a mass of tangled underbrush, weed-grown roads and unsightly hollows he has evolved well kept drives and a smoothly rolling sward of bluegrass beauty. He has also added six acres recently to perfect the cemetery outline and give needed space.

The merited appreciation of Father Jones' faithful work was evidenced by the immense concourse assembled for yesterday's service. Five clergymen participated in the ceremonies—Rev. P. M. Jones, Maysville; Rev. James Gorey, Covington; Rev. Adelbert, Cincinnati; Rev. Cusack, Minerva, Rev. De Bruyn Mayslick.

As the priests chanted the fiftieth psalm from David, which the church of the centuries has sung for so many ages in her burial service, few hearts failed to pulsate with the solemn intonation—"Have mercy on me, O God, according to thy great mercy and according to the multitude of thy tender mercies, blot out my iniquities."

Rev. James Gorey, Chancellor of the diocese, was the day's orator. An impressive manner, commanding presence and resonant voice won him instant attention, which he held unwavering through an address that lasted forty-five minutes, yet seemed as ten. He began with a poetic description of the transitory loveliness of an exquisite flower, a glorious sunset, a pellucid stream, compared to the magnificent grandeur of man's immortality. The text was from the twelfth chapter of Job—"Have mercy on me, have mercy on me, at least you my friends, for the hand of the Lord has touched me." Father Gorey said the Catholic Church established the doctrine of Purgatory on reason and revelation, and through her faith in the communion of saints proves love is perfected in death. There is no parting when on the pinions of prayer we live in constant union with our dead. A sympathetic tenderness, which caused many a furtive tear to rise, graced every point of Father Gorey's discourse, yet the forceful directness of his language made the simplest statement impressive. It is hoped this first is but the forerunner of other opportunities to hear so gifted a speaker.

With the chanting of the Canticle of Zachary, the services closed and another mile-stone marks the success of Father Jones' ministry in Maysville.

## CINCINNATI TOBACCO MARKET.

Combination of Circumstances Interfered  
With the Trade the Past Week.

	Week.	Year.
	1902.	1901.
Offerings, hhds.....	173	465
Rejections, hhds.....	61	114
	11,637	60,236
	11,637	10,778

Actual sales, hhds... 112 351 46,390 49,478  
Receipts hhds... 222 442 47,236 57,466

The 173 hhds. tobacco offered averaged \$6.08, as against \$6.21 for the 475 hhds. last week and \$8.08 for the 465 hhds. in the corresponding week last year.

The interest over the election on Tuesday, causing the absence of shippers from the market, followed on Wednesday and Thursday by gloomy weather and incidental poor light, practically broke up the burley leaf sales the past week.

Sales were held on only two days, Wednesday and Thursday, and offerings were extremely light on both, the aggregate being the smallest in any one week's transactions for several years.

Prices obtained, as noted below, averaged low, but this was due to the quality of the tobaccos sold, which were nearly all of the low and inferior grades. Common red and the greenish and nondescript types predominated, and close analysis of the figures shows that these sorts sold much better than last week, and were really from 1/2c. to 3/4c. higher all around.

The very limited offerings of medium and good color lugs and medium leaf did not fare so well, and as a result shippers rejected freely in these types.

No new tobacco was offered during the week, and until it makes its appearance about the end of the month the present light and dull market is expected to continue.

## Live Stock Market.

(Cincinnati Live Stock Review.)

The receipts of cattle the past week show a total of 5,720 head, against 6,419 head the previous week and 8,688 head two weeks ago.

The market was steady all week except on Monday, when medium and heavy grades declined 10@15c. per 100 pounds. The receipts during the week were about the usual run, and were generally disposed of readily; common light stockers, however, were slow to move. Good

milk cows are scarce, but there are plenty of the ordinary kind. Bulls are in fair demand. The receipts of hogs during the week were 14,901 head, which is 4,183 head less than a week ago and 5,036 head less than on the corresponding week last year. From March 1st to Nov. 1st, the receipts reach a total of 437,596 head and shipments 150,235 head, leaving a net supply of 287,361 head, against 311,108 head the corresponding period a year ago.

The winter packing season opened up last week, and, although the movement to this market has not been heavy, other Western markets have had heavier receipts, thus depressing prices, the decline during the week being about 15c. per 100 pounds. The quality of the offerings were irregular and average only fair. Although the total Western hogs packing in the past eight months was 20 per cent. less than the preceding year, the reduction in Cincinnati was only 16 per cent.

Receipts of sheep and lambs were 96 head more than last week, amounting to 5,568 head.

The sheep market has been dull and weak, with prices 10@15c. lower than a week ago. Lambs declined 15@25c., although a better feeling for extras prevailed Friday.

"It is the little rift within the lute which, ever widening, makes the music mute." It is just a little rift in the health of a woman often which gradually takes the spring from her step, the light from her eyes, the rose from her cheek and the music from her voice. Perhaps the bug-bear which has frightened the woman from the timely help needed at the beginning has been the dreaded questions, the obnoxious examination, the local treatments, of the home physician. There is no need for these. Nor is there need for continued suffering. Dr. Pierce's Favorite Prescription can be relied on by every woman, suffering from what are called "female troubles," to renew the health and cure the disease. Women are astonished at the results of the use of this medicine. It not only makes weak women "robust and rosy cheeked," but it gives them back the vigor and vitality of youth.

Free. Dr. Pierce's People's Common Sense Medical Adviser, 1,008 pages, is sent free on receipt of twenty-one 1-cent stamps to pay expense of mailing only. Address, Dr. R. V. Pierce, Buffalo, N. Y.

No. 321 Limestone Street, Maysville, Ky.

Born, to Mr. and Mrs. Rachel Oder, of Lexington, a daughter.

The Augusta Chronicle, in speaking of a game of ball at Germantown by a club made up of Germantowners and Maysvilleites and a club representing Augusta says: "Case, the pitcher for the boys of Dutchland, hit Jacobs, of Maysville, in the ribs with one of his grapevine curves and put him out of the business—so far as the game was concerned. In the meantime three or four fights were in progress, during which Pete Berger, of this city, was the recipient of a black eye from a bat wielded by a Maysville fellow with the dexterity of an expert Indian club swinger. All the spectators say the game was a howling success, so far as the howling was concerned." Victory perched on the banners of the Maysvilleites, 18 to 8.
